#6 Because to many can't afford insurance

#6 money for ongoing medical care because it is expensive and rural counties have little money anyways.

\$ for Rx because elderly people are so many Rx and have low incomes, so they cant cover the costs

\$ for ongoing med care

60

A hospital or local emergency medical care facility

Adult dental- low income families put dental last due to no insurance, & dental is their best concern

Anyone who has a pre-existing condition cannot get insurance at all or over \$400-\$500 a month--who is going to help these people?

Care for the elderly and for prescriptions

Cost for ongoing medical care because that includes prescription costs, too. It's running people dry.

Dental care for children, they don't get the treatment they need because their parents have to drive so far.

Dentists who will not accept my insurance.

Doctor who will accept Medicare. Older folks need it most and have least money.

Doctors office visits, some people have to meet a deductible before their insurance will pay.

Don't know. We don't live in town. We are fully covered by health insurance and go to Rogers for care

Don't know, covered by insurance and go to rogers for health care

Emergency care costs are sky high and we have to go 30 miles to get there.

Emergency care. We have no facility

Emergency medical care because it's not expected when an emergency happens, therefore people don't usually have money to cover it.

Level

Emergency medical care because there is none available in our county

Finding a doctor to accept any type of insurance whatsoever is a problem because have to travel a long distance for a doctor.

Finding a doctor who accepts Medicare because it's expensive without help from Medicare.

For emergency calls, because if one has an emergency, they must travel too far.

Getting in to see a doctor is a major problem, period.

Having emergency facilities without money because of the drive to get to one.

High cost of medical insurance because many companies are no longer paying for employees' insurance and cutting back benefits

Hospital availability because of distance people have to travel if they live in St. Paul and surrounding area.

Hospital and surgery expenses

Hospitalization for uninsured and under insured

I believe that it would be the commuting to larger cities for the type of specialized care you'd need.

I would say dental because that would seem to be the only thing I have problems with personally.

Is the elderly who don't have enough money for prescriptions.

Lack of local hospital

Long-term health care for chronically or terminally ill patients

Medical bills-all kinds, because they are so much higher than my wages and most other people and insurance is so high, people can't

afford it - but most caucasian cant' even get medicaid, or help to pay medical bills

Medical care, everyone needs medical care.

Money for ER visits.

Money for Rx

Money for Rx. Cost for Rx too high.

Money for dental care because its important for the kids to have dental care but people can't afford it.

Money for dental care. I know of several students who can't afford to see a dentist.

Money for emergencies. It costs too much at emergency rooms.

Money for emergency care because not many people in our county have money or insurance.

Money for emergency care.

Money for emergency care. The ER in hospitals charge a lot and we have no Mediquick or it's equivalent in our county.

Money for emergency medical care

Money for emergency medical care because of lack of health insurance.

Money for emergency medical care. If you have a real emergency they send you to another county.

Money for ongoing care if my kids need it is a concern.

Money for ongoing medical care because if someone is sick a long time, they can't afford to take care of themselves.

Money for ongoing medical care because it doesn't do you any good to go to the doctor but not be able to continue care.

Money for ongoing medical care because of all of the follo up and cost of prescription.

Money for ongoing medical care. People may seek medical care and find they don't have funds for ongoing care.

Money for ongoing medical care. Personal experience.

Money for prescriptions because Medicaid and other programs don't cover prescription costs.

Money for prescriptions because elderly have a high cost to live, anyway, and they need a lot of medicines that are expensive.

Money for prescriptions because elderly people have many prescriptions and cannot afford them.

Money for prescriptions because most older people don't have coverage for prescriptions and some don't have any insurance at all.

Money for prescriptions because of an increasing elderly population living on a fixed income.

Money for prescriptions because people are on so many prescriptions that they can't afford cost of medicine.

Money for prescriptions because the amount is too high to pay

Money for prescriptions for non-insured people. Too expensive!

Money for prescriptions for the uninsured. Medicare folks have no way of purchasing prescription drugs.

Money for prescriptions, because they are more expensive than going to the doctor.

Money for prescriptions. I've heard people complaining about the cost of prescriptions.

Money for scripts. A lot of people only get social security.

No money for prescriptions--health costs too high, can't afford prescriptions, etc. No insurance--health or dental.

Not enough care for the low income.

Ongoing medical care because people with chronic illnesses run out of benefits and money after a while.

Ongoing medical care because you have to have it.

Ongoing medical care, because of time and cost

Pharmacy, for people with no insurance

Prescription cost because of not having money to pay what insurance don't pay

Prescription costs because the costs are too high.

Prescription costs continues to rise and is unaffordable

Prescription drugs--the patient portion for prescription drugs is going up every year--even with insurance. There are some drugs that insurance companies won't cover any more.

Prescriptions because the drugs are over-priced.

Prescriptions for individuals on a fixed income

Prescriptions. I talk to a lot of kids who say mama and daddy don't have money for scripts.

Prescriptions. Important because don't have money to pay for Rx or copay or insurance doesn't cover Rx.

Prescriptions and emergency medical care

Poor and elderly families in community plus no hospital.

So many that do not have medical insurance go without health care.

The rising cost fo prescriptions and doctor visits even with insurance is high

Transportation to and from hospital.

We currently have no emergency medical care.

affordable health care.

affordable insurance that will actually pay medical bills. A person can be bankrupted with medical bills. Madison Co. does not generate a lot of wealth for its citizens. A person shouldn't go without medical care or die just because they are poor.

all medical care cost are important

Level

all of the above

all of the above issues.

availability of after hours medical care

cost of Rx & no dental & eye coverage

cost of continual medical care-unable to afford diabetes, asthma or heart meds, or depression meds. This can seriously affect a persons well being

cost of insurance

cost of prescription medication for the elderly and for residents of madison county who have no health insurance. Most elderly are on fixed income and cannot afford their meds.

dental care because in this county there are no dentist who usually work on children and they don't except ArKids or medicaid

dental care. Very expensive. And yet is so important to overall physical and mental well-being

dental help. I think there should be a plocae for people to go that would provide dental care for people without insurance. Also I believe cost

of prescriptions are too expensive for people without insurance.

dental, nobody can afford dental

dentist that will not accept arkids

doctors who do not accept medicaid & medicare because all of these people need help. They also can't pay for prescriptions.

don't know

el dentista

emergency care.. So many citizens can't afford to go to the doctor and therefore don't receive prper medical treatment

major medical- cant afford to live

medical

medical attention

medicines--insurance does not pay!

minor sickness

money for RX because some do without since they don't have the money

money for emergency medical care because of traveling so far to get to an ER center

money for emergencies. My mother had that problem recently.

money for emergency medical care because it also costs to drive out of country to one

money for emergency medical care because the community needs more medical assistance.

money for er care because someone might not seek care for fear of financial burden.

money for hospitalization

money for medical care for the uninsured.

money for ongoing medical care because it's so expensive to get care.

money for ongoing medical care because of expensive cost of care.

money for prescription

money for prescriptions is most important. Many elderly need help with this.

money for prescriptions. The costs are inflated.

money for rx because many do not receive tx because they can't afford it.

money to go to the doctor because Arkansas is very poor.

no emergency medical care

no se

none bacuse I don't spend much on it.

not enough services- I.e, maternity, pre-natal, hospital

not having a hospital

ongoing med. Care

ongoing medical care because I've heard a lot of stories that people's insurance won't cover them after a certain amount of time.

ongoing medical care due to high costs of care.

prescription drugs

prescription drugs for those w/out help.

prescription prices are way too much

prescriptions

prescriptions drugs, most elderly people are on fixed income and have to make the choice between their next meal or their prescriptions being filled.

prescriptions for the elderly who can't afford it.

see notes on back page

she thinks doctor's visits are more important.

the cost of all medical care is very important, but the one that I think is most important is dental care. Adults that qualify for medicaid cannot have

dental work done, because mediaid won't pay for adults unless it is a life or dealth situation. You tee

the dentist (money for) is probalby the biggest problem--what I hear.

todo 10 de arriba es importante la salud, atencion medica de emergencia.

Level

"Hospital because have to drive all the way to Springdale"

#20 we have wonderful doctors there are just not enough to eliminate sometimes having to wait hours for appts schedule.

#22 Our hospital is to far away

#25 plus for single parent families or elderly who live alone at poverty level out in the "boonies"

A hospital is necessary

A hospital--because we have to travel so far to have access to one and because we need to travel so far to have access to hospital emergency room facilities.

Access for the elderly and uninsured

Access to a doctor in a timely manner. It takes too long to get an appointment.

Access to a doctor in a timely manner. Our local physicians are so burdened, it takes a long time to get an appointment.

Access to a full staffed real hospital. Our closest hospital is thirty miles (40 minutes) away. I've performed cpr in the back of an ambulance for over 30 minutes because we have no hospital in huntville. That was an extreme case, but the fact still remai

Access to a hospital. I was scared I'd have my last baby in the car!

Access to a hospital. If we had one it would cover a host of medical needs.

Access to a hospital. We have none.

Access to a hospital. We've suffered since ours shut down. People have nowhere to go but far away.

Access to a phgysician in a timely manner. She has had a personal experience with this as a problem.

Access to adequate and affordable health care for elderly because they need help with health issues, but may not be needing nursing services.

Access to affordable and adequate assisted living for the elderly. A lot of our elderly do not have adequate retirement funds to access those services.

Access to aphysician in a timely manner. It's difficult to get in to see one.

Access to health care services. If you can't get there they can't help you.

Access to health care services. We have no hospital in our county.

Access to healthcare services because of size of county and lack of continuing healthcare services. We aren't advanced enough to keep up with growth

Access to hospital and health care services because if you need to go to hospital, you have to drive a long way to get adequate care.

Access to hospital services - obvious

Access to hospital services because we don't have one.

Access to hospital services is important all hosp are almost 30 miles or more away and where it's an emergency all time counts. Not metion some people need doctors after hours.

Access to hospital services, because Madison County has no 24 hr medical services as needed.

Access to hospital services.

Access to hospital services. The farming community has an at risk group for major injuries and no hospital.

Level

Access to hospital. Many miles to get to nearest hospital.

Access to prenatal care because Mad. Co. doesn't have OB-GYN or prenatal care at the local unit or hospital. Prenatal care catches many problems that can affect mom and baby and many can't afford OB-GYN's and can't qualify for medicaid because of the guid

Access to testing and diagnostic. Have to drive too far to receive these services.

Access to tests and diagnostics because no availability in our county, and sometimes there is no way to transport out of county.

Adequate and timely access to a physician

Adequate and timely access to a physician because when I need to see a doctor, it's a long wait before I can have an appointment.

Adequate and timely access to physician because by the time you can get in, you're either not sick anymore or have died.

Affordable and adequate assisted living for elderly because of high number of elderly in our county not having adequate care.

Affordable dental care, also no hospital in town to get quicker services.

Assisted living because a lot don't have enough money for cost of living and help.

Assisted living for the elderly is major problem for most families. Private care is cost prohibitive for most

Dental access. There are not enough dentist around to be able to get in to see if there were an emergency or a serious problem.

Dental and health

Dental care in area available to ARKids, medicaid and medicare patients

Don't know, Huntsville, Does need a Hospital

Due to living in a Rural area I understand that traveling Apprx. 30 miles for ER health care is a matter I have to except

Education on health care.

Elderly needing care because there is not always somebody to take care of them

Getting to get tests run when you need them. They send you all over NWA for different tests.

Having access to doctors on the weekend because of far travel needed to get to one on weekends.

Hospital and after hours care because of distance to get to one.

Hospital as stated before and probably assisted living for the elderly (mainly because I am approaching the time in my life to be aware of these needs.)

Hospital because it take too long to get to one.

Hospital because of long travel to get to one.

Hospital because of travel to get one.

Hospital because there is no reason for so many people who live in our county to have to drive over an hour to get to a hospital.

Hospital because there is none

Hospital because we are to far from other hospitals to travel in an emergency.

Hospital because we need one closer to our area.

Hospital services bacause it takes 1-1 1/2 hours to get to one.

Hospital services because of traveling so far to get to one

Hospital services because one is not available in this area.

Hospital services. Have no emergency hospital in town.

Hospital--due to far travel.

Hospital-lack of because we are growing as a county and it's too far to travel to get to a hospital.

Hospital services we are 30 miles away from the nearest hospital in Fayetteville or Springdale. In an emergency that could be life or death.

Huntsville needs to step into the new millenium and offer it's citizens more modern health care

I don't know much aboupt assisted living for the elderly. I believe that we have Countryside. I think that it is an important issue for our elderly.

Also import is access to hospital services, since we don't have a local hospital. There is a 45 minute-1 h

I feel we need a hospital in Madison Co. for the simple reason Washington Co hospitals are overcrowded and 30 miles away.

I think that prenatal care, medical care for children and elderly care are important because these individuals cannot take care of themselves & the county needs to help those who can't help themselves

I would like to see more people who don't have money for doctors or dentists be able to get medicare

I would say 20 & 25 because if they do get the services quick enough or at all it could be deadly for them.

I would say pharmacy because there is only like one that I know of.

It is difficult @ times getting a timely appointment w/ my doctor.

It is so hard to get in to see a doctor that you are either well or dead by the date of your appointment.

It should not take so long to get in to see a doctor.

It's a tie between access to a Dr. quicly and available diagnostics, both are hard to come by.

Lack of a hospital because of traveling far to get to one.

Lack of emergency room or after hours health care.

Lack of hospital because of traveling too far to get to one.

My community is relatively small, and therefore getting access to emergency health care is family concerning.

NA

No emergency room

No hospital

No hospital, after hours or ER care. Over 50 miles for access to care.

No local hospital-no rehab

No rural water or sewage systems.

Need natural gas.

Not having a hospital because of long travel to get to a hospital.

Not open on Saturdays or Sundays

Prenatal care because it was hard for me to find anyone when I had to pay for everything myself.

Public and private transport for poor young people and the elderly is important for basic quality of life. Also, sick people who are alone and not old enough for nursing home have no place to go and end up nameless and die. Where do these people go?

Services and transportation for elderly and those who have no other access.

That there is no hospital open on the weekends

The emergency room--It takes them "forever" to get to a persone with heart problems and snake bite--my personal experience.

There are no hoospitals.

There is no hospital in the city and you have to drive 35-45 minutes to a hospital for emergencies

There isn't enough transportation for the community. Some people can't afford a car, and some do not drive.

There needs to be medical and dental insurance available for adults--like the ArKids 1st. Most people can't afford insurance--so they go without.

Level

Timely access to a dr. It takes a long time to get in to see one.

Timely access to physican because there is only one good one in our county.

Trans. To medical facilities because there are so many people who live in Rural areas w/o a way to town

Transportation and \$ for meds for elderly

We could use an er closer to us.

We do not have a hospital

We have no hospital in Madison County anymore

We have transportations and a home healthcare policy if required.

We need better facilities for emergencies since we are a distance from hospitals. People don't want to pay ambulance fees if they have emergencies very often, especially as they get older.

a hospital

access to a hospital

access to a hospital. We don't have one.

access to affordable & adequate assisted living for the elderly

access to care for elderly because there are no affordable assisted living facilities in our country

access to dental care

access to hospital services

access to hospital services, because of distance.

access to hospital services--if it is an emergency, hospitals are a ways away. We could use an er closer to us.

adequate and timely access to physician because after hours, no choice but emergency room in another county.

adequate assisted living; dental care; none-assisted living; not enough dental care

all aspects are important

appt time often too far in the future

dental again. And affordable and pleasant assisted living for aging persons

lack of doctors.

lack of hospital because it is needed really bad.

need more services - hosp, mental, maternity

no hospital

no hospital

affordable dental, some kind of dental payments the cost of extractions, adults can afford dentures, but not the cost of having all their teeth pulled

no hospital "too far away"

no hospital. Must drive 30-60 miles.

no se

none

not having a hospital

not having a hospital because of time it takes to get to one.

not having a hospital. Our community really needs a hospital.

not having a local hospital. Have to drive 30-60 miles to nearest hospital.

prenatal care, there are so few doctors who do prenatal and delivery.

servicios hospitalarios y prenatales

she doesn't think there is a problem.

tener un ospital

that the care is accessible and provide quality care

the problem is the access to a place for emergencies, because it is too far to travel for emergency.

there isn't a hospital or clinic...little trained EMTs and paramedics. Don't be sick in madison co. Little insurance in the county.

transportation and timely care.

transportation to physicians

transportation, can get to a doctor

transportation--w/out local health care, many people either don't have cars or don't drive in springdale/fayetteville

unknown

we could use an er closer to us

you have to wait too long to get in to see a doctor. By the time you get in when you're scheduled, you're already over your sickness.

"cancer because there are so many who get it and hard to find a cure."

#27 I see many young people with asthma in my work or othe breathin disorders

#29 Because so many people have it

#32 Osteoporosis - I have the disease #38 Cancer my husband has skin cancer #37 Alzheimer - my Dad had it #36 Stroke - in the family

A clinic

Access to immidate care if you hav a major health problem as a stroke, heart attack or diabetic episode

All equally important.

As fare as something our community might be able to impact--heart disease/weight disorders, diabetes. If we at the very least had sidewalks to promote walking as a mode of transportation.

Asthma and other lung disease

Bad water. Need rural water which would fix a lot of problems.

Cacner, heart disease

Cancer

Cancer because I hear about a lot of diagnoses of it.

Cancer because I know of a lot of people who have had it here.

Cancer because a lot of people have it and they need to find a cure for it.

Cancer because at least one person in every family has cancer.

Cancer because have heard information about a high prevelence in Madison County

Cancer because it seems to be so widespread in all age groups in this area.

Cancer because personally I know a lot of people who have had cancer.

Cancer because ther are so many people who have it

Cancer because there are so many people in our community and my own family with it.

Cancer because there seems to be a lot of it in our county and the long term cost for patients with cancer are very high due to insurance not covering everything.

Cancer, because it seems there is an awful lot of cases in our county.

Cancer. There should be a more done to help people who have been diagnosed with cancer. Maybe by having a facility that deals with this issue that might no be so far away.

Cancer. A lot of people seem to be diagnosed with different types.

Cancer. I hear of a lot of cases.

Cancer. I've known more people with that than any other disease.

Cancer. Just about everyone I know has had some sort of cancer.

Cancer. Lot people have it and really no treatment center for it here.

Cancer. Prevalent in the area.

Cancer. We seem to have many instances of varied types of cancer.

Care of the elderly, no insurance, few doctors. No help.

Chewing tobacco is a problem we see with teens and pre-teens all of the time.

Chewing tobacco. We see kids in middle school getting in trouble for chewing.

Cigarette smoking and/or second hand smoke. Too many people smoke around us, even when we don't smoke.

Cigarette smoking is a big problem because so many do it.

Cigarettes and smokeless tobacco. This community has aq prevelanc eof tobacco usage.

Diabetes because a lot of people in family has it and it's hard to find a doctor to keep you regulated

Diabetes because most people are not aware of it and we need to get information out about it.

Diabetes because of high number of people with the disease.

Diabetes because of its effect on health.

Diabetes because of personal experience.

Diabetes because there are more people who have that disease than any other problem.

Diabetes, the people around here need some where they can go to learn how to deal with insulin, eating right just all around care that you need to know to help yourself to lower the risks or control diabetes.

Diabetes. I have a lot in my family and see a lot around.

Education. I believe people need to be properly and professionally educated about their personal health issues.

Excessive weight/thinness because I've seen so many people in our county with on of the 2.

HIV concerns me most because of not being able to know or be aware of who is infected and if I have been exposed to the illness. I do know it is becoming more widespread in Madison County.

Heart attacks and strokes because in our community, younger people are leaving for college; leaving older people with these problems. And there are a lot of people with them.

Heart disease because he's seen so much in the county.

Heart disease because it's a big killer and there is not much to do about it.

Heart or cancer diseases are seen most.

I believe cancer is the most important issue in our community.

I have some problems with the issue od not having a "right" to know " that I amy hve been in contact with or exposed. However, someone w/ HIV has the right not to disclose this inf.

I understand the right to privacy, but to be exposed to a life threateni

I think anything respiratory related--because there are so many chicken houses in our community. Also, heart-related--because of inability to get to a hospital in time.

In our county, I believe drug abuse in our teens and young adults is a big issue.

Level

It seems like there is so many people getting cancer these days.

Kids and tobacco, especially underage and smoking

Lack of education for weight & diabetes

Lung disease because I know more people with lung disease than any other illness.

Minors in use of tobacco and liquor products. How do they get the products?

No one pressing issue

No place to exercise, no sidewalks, no activities complex

Our community has high levels of cancers, diabetes, smoking, etc. I feel this leads to the fact that more education is needed.

Poor eating habits & bad nutrition, plus use of tobacco & large numbers of poultry houses contribute to chronic related disease--there is a lack of education relating to these issues it seems to me.

STD's and cigarette smoking

Smoking because a lot of smoke and those who don't have to inhale it.

Smoking because you don't see many people without a cigarette in their hand or a dip in their mouth. Cause I'm one of them!

Stroke because my grandpa had one and then I seen how many hve had them.

Stroke- it is so disabling

Strokes because there is a high number of elderly people in our county with heart attacks and strokes

The need for services for youth because of lack of information related to STD and smoking.

There needs to be something done about cancer--you'd think by now they'd have a cure for it--or is it just the drug companies' way of getting to us?!

Tobacco because it causes cancer.

Tobacco smoking because it affects everything.

Tobacco use in this county is really high, I would like to see a more concerned effort to stop high schoolers from smoking & dipping. Students still think they are cool & rebels for smoking & dipping, attitudes have to change.

Tobacco use, including smokeless tobacco. You see a lot of young people in Madison County smoking.

Tobacco--It seems as if many people in the community either don't realize or don't want to realize the harmful effects of tobacco.

Weight problem because it can cause diabetes, heart disease, etc.

Weight problems

Weight problems and cigarette smoking bring on all other diseases--helath care production and money for.

Weight problems because of personal problems with increasing weight and diabetes and noticing people in the county with overweight bodies

Weight problems because that's the only problem I have.

Weight problems because there are so many people here who are overweight.

Weight problems because there is not enough education and there is ot enough for the kids to do.

Weight problems--in a rural area, it's hard to go anywhere to go running or walking, there are no gyms in Mad.Co. Being overweight can lead to many more health problems.

Weight problems. We go out to eat a lot and there are a lot of big people eating.

a lot of people here are elderly with no transportation and have no one to help them I think this is a major issue for their care and health.

all of the above because I'm sure everyone has someone in their family with one or more of these.

all the above

attention to people with diabetes, and the heart. These diseases need specialist for treatment.

breathing disorders (associated w/smoking) and diabetes (& assoc. obesiy)

cancer

cancer and heart problems--what I hear.

cancer bacause it is such a horrible disease and no way to prevent it.

cancer because I've had it and several people in the communtiy have, too.

cancer because it is a multigenerational problem and is diagnosed too late to help.

cancer because it's a major issue everywhere and need more testing/screening for it here.

cancer is because it's so common.

cancer, heart disease

caner - too many cares in this county

chronic health problems people have and have no resources (money, ins., transportation) for access to medical help.

cigarette smoke

cigarette smoking and weight because they lead to other health issues.

cigarette smoking because it is more prevalent in our county than the other problems

cigarette smoking because it contributes to other health problems.

diabetes, problemas de peso

don't know.

heart disease because of affects on health

heart disease, cigarette smoking and cancer.

hiv because it seems to be on the rise

lack of education on diseases, exercise, nutrition, health care, etc. Lots of people don't know about all of these. She has had a stroke.

most age related disorders re of some concern to my community, as it has a great deal of older people.

no se

none

nose

osteoporosis is largely undiagnosed

probably diabetes b/c a lot in my comm. Have diabetis

she thinks the disease HIV-AIDS is the most important problem because it's so easily spread and is fatal.

smokeless tobacco

smokeless tobacco. A lot of our youth feel it is harmless.

smoking bacause young kids think cool and leads to severe health problems.

smoking need to know more about it.

smoking, because of the concers it causes.

the education & care of the youth in the comm. Requiring healthy living

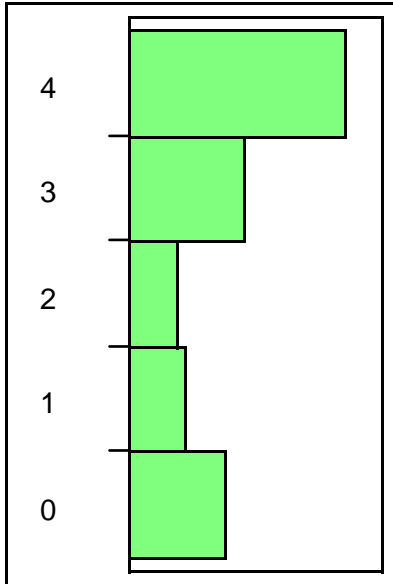

think about this question.

tobacco use. It seems to be very popular either three smoking or chewing. I think that the use involving high school students has been going up.

Level
use of tobacco & liquor by minors, where do they get these items
weight control
wt problems because a lot of the other problems stem from that.

Level

"Alcohol because so many people do it." Also substance abuse. "Needs to be more help."

"I don't know"

#4 A lot of people could use counseling but can't afford it.

#45 + #44 we hear/op read of many accidents involving alcohol. Treatment is only available in the larger cities w the exception of our local AA mtgs.

#48 - we have lots of young people and others on meth, cocaine and other drug uses - and nothing is being done for them.

Accessing drug abuse centers that are affordable because there are none in Mad. County.

Alcohol and drug abuse counseling and treatment. It's needed because of so much addiction to both in our county.

Alcohol treatment facilities--so people can afford to get help with alcoholism.

Alcoholish and drug use as well as children being constantly exposed to these issues

Alcoholism

Alcoholism and drug abuse. It is so rampant in our community with little or no help in the outlying areas.

Alcoholism because I know a lot of people who drink. Also marijuana.

Alcoholism because it is just a way of life. Believe more people would get help if facility available.

Alcoholism. There isn't a treatment program available for moderate or major problems.

Anxiety disorders because there is a lot of isolated people in Madison county

Available and affordable counseling services. A lot of people have had problems with their childrne and don't know what to do.

Available and affordable psychiatric services. Our are limited to ogc.

Available and affordable psychiatric services. We have no psychiatrist at Ozark Guidance.

Available and affordable psychiatric services. We only have limited help available through Ozark Guidance.

Available and affordable psychiatrist. We have none.

Available counseling. My husband and me would be in counseling now if it wasn't so hard to get.

Available psychiatrist. We don't have one.

Counseling services so that people can get help if they need to.

Counseling service and preventive services

Depression

Depression leads to substance abuse/alcohol

Depression, a lot of people around here have it but they don't know how to deal with or treat it they need to be more informed on this matter.

Level

Depression. A lot of people don't even know they have it until a dr. tells them.

Do not know anything about these things.

Drug abuse because our county has so much of it and law enforcement will arrest them, then turn them loose to do it again

Drug abuse because there are a lot of good people who have this problem.

Drug abuse. More people making meth so more people are addicted.

Drug scene because it is getting out of hand.

Drugs

Drugs, because she thinks it is a problem that should be addressed because it is a danger to the community.

Emergency care because if it's a mental problem they need help right away to be okay.

Emergency mental health services because it's too far to drive to one.

Emergency mental health services. Nowher to go but only hotlines.

Emergency services. We have none.

Emergency treatment. We only have hotlines

Getting pt to except tx for these problems. I think if they have a serious life threstineing (alcoholism and substance abuse) problem we should force treatment. Not at the pt's discession.

I feel that alcohol use is seen as an okay lifestyle and people either don't realize or don't want to realize the negative effects of alcohol.

I really have no problem with the mental health caues Ozark Guidance Center in Huntsville is a great help source because I attend it and it is wonderful!

I think alcohol and drug abuse are of great concern. Most anti-social behavior comes from abuse. Good people are killing themselves with drugs & alcohol

I think in this community there is a real problem with alcohol and drugs which actually results in the need for mental health and alcohol treatment programs because many people escape from their problems this way.

I would say treatment facilities for drug and alcohol abuse. Parents with monor children in school can't just leave and go to another county for residential treatment with children enrolled here in school.

Lack of counselors/doctors because of high incidents of mental health problems.

Lots of alcohol and drug use in this community. I think part of our problem could be solved with help from our local law enforcement.

None. These are all problems people should take care of themselves.

Not any choices of low income, just OGC

Psychiatric services.

Substance abuse

Substance abuse "always something in the paper about labs and marajuana."

Substance abuse and alcoholism treatment facilities because of long travel and expense.

Substance abuse and none major employers drug screening.

Substance abuse because almost everyone in Madison County does have it.

Substance abuse because it's on the news all the time and have so many people here who do it.

Substance abuse because it's so easy to access.

Substance abuse because kids could get ahold of it.

Substance abuse because kids have nothing else to do.

Substance abuse because of high number of people on drugs.

Substance abuse because of high prevalence in our county.

Substance abuse because of knowing people who have the abuse problems and not being able to get help

Substance abuse because of personal experience with it.

Substance abuse because the widespread in Madison County.

Substance abuse, I read about it a lot in the paper.

Substance abuse-People have to want help

Substance abuse.

Substance abuse. We have so much of the stuff in the community.

Substance abuse. We're seeing a growing acceptance of drug usage (beyond alcohol) at a younger age.

Substance and alcohol abuse. There are many people who suffer from these deseases and can't get help. Most places will not let you come into their facility unless you pay thousands of dollars and most of the people wiith these problems can't afford it.

Substance abuse, especially with methamphetamine. There are so many people getting addicted to it and it is so damaging to the body. People are making it from items that can be bought at local stores (over the counter).

There is not close available treatment for most of these issues

Treatment facilities for substance abuse and other mental health care problems because of travel needed to get to one from here.

Treatment for alcohol and substance abuse. Because our community lacks resources for help.

Unknown

We have no services of any kind. More people might go for substance abuse counseling, etc. if they didn't have to travel to Fayetteville and springdale.

a clinic for these problems

abuso a sustancia como cocaina emas

access to mental health and emergency care

affordable counseling services, don't need to bottle stuff up.

affordable help

alcohol and drugs because so many people do it.

alcohol and drugs--what everybody says.

alcohol treatment programs because of having a large number of alcoholics.

alcoholism because I see a lot of it. Since we are a dry county, people are driving to other counties to get alcohol and driving back into our county drinking it.

alcoholism because it's an accepted drug and a lot of people use it, not realizing consequences

alismo

all of these things are neglected and are major issues. There needs to be some sort of support groups for all.

all the above

aside from drug usage, people keep quit about mental disorders.

available and affordable counselling services because there are a lot of people here who need help and there is none available for them.

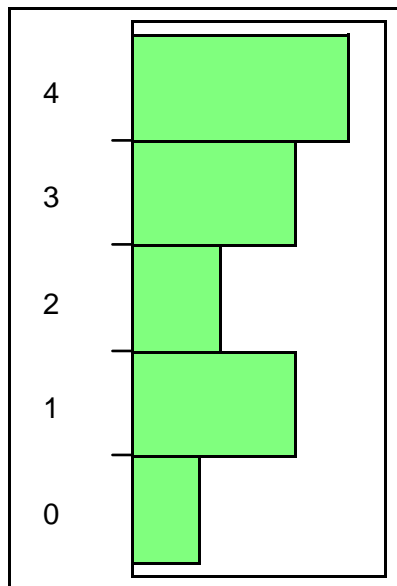

available and affordable counseling services. None available.

available and affordable psychiatric services because there is nowhere to go 7 days a week or have to drive a long distance for mental help

Level
 depression
 depression - and availability and treat / prevention of causes & payments.
 depression because of denial and lack of support for people who have it.
 depression- many aren't making enough to pay for bills or food and have depression symptoms but can't afford to go to the doctor to get meds.
 This can lead to substance abuse, loss of care for anything and other health problems.
 don't know
 drug abuse, because of the youth and the growing number that will be and are being influenced.
 emergency mental health services
 emergency mental health care-esp. in patient. We are in a crisis in the area exp w/meth abuse
 it does concern me that someone with a mental health prob. That becomes a risk to themselves or others can not be treated at a hospital-that they
 have to be transprted a great distance and usually a court order is needed
 lack of specialists in area, travel to work with metal health patients
 meth labs
 need care for mentally ill clients w/ emergencies
 no affordable or local access to mental health services.
 no se
 nose
 not any choice for low income families besides OGC
 not enough facilities
 not enough facilities to deal with.
 not enough services for people to get help.
 once again all the above. Our community is full of drugs & alcohol.
 springdale hospital used to be the only facility that would accept psychiatric.
 sub. Abuse related to young people
 subgstance abuse--meth is a huge problem for us.
 substance abuse because it adds to crime, murder and other problems.
 substance abuse services. We have a lot of addicts who get no help in their own county.
 substance abuse, because a lot of residents of madison & carroll county use drugs.
 substance abuse, because of persistant meth problems.
 substance abuse. I am not aware of many substance abuse services in our area.
 substance abuse - it is sucha dibrilating practices
 unavailable of services.
 unknown
 we have a big problem with drugs in NWA

"not sure"

Accessibility/Insurance

Access to affordable and available health care services because they need affordable services just like anyone else.

Access to affordable and available health care services because some people are prejudice.

Access. If I can't get in to see a doctor quickly, they can't either.

Adequacy of health care services.

Awareness and language but it seems a lot of Hispanics are getting hired in Huntsville so it can't be a big problem.

Awareness of health care services because they need to know what is available so they know where to go.

Awareness of health care services. If don't know they are there, will not access services.

Cultural and language barriers

Cultural and language barriers-plus a lot of these folks are illegal and need health care also.

Cultural and language barriers. Hispanics are having difficulty communicating.

Cultural and language barriers. Many in Madison County are not aware of cultural differences as they relate to health care and if a patient doesn't speak English they have trouble communicating needs.

Cultural and language barriers because we have so many other races moving into the community.

Cultural and/or language barriers

Cultural and/or language barriers.

Cultural barriers because women may not be allowed to drive if health care is needed

Level

Cultural language barriers.

Cultural/language barrier. They don't understand.

Cultural/language barriers because they don't speak our language and there aren't many interpreters.

Different names. No SS#.

Don't know

Don't know.

Don't think they have any problem with their health and dental care.

Don't know.

I don't think the multicultural members have much of a problem, they put health and dental first. Their children eat more fruit.

I've seen the problem of a pharmacy not having a translator.

Language barrier and also not being a citizen they may not qualify for any assistance.

Language barrier because it makes them more hesitant to try to get help.

Language barrier because when they seek help, the communication stagnates and health care, too.

Language barrier. Could know their needs more if better communication.

Language barrier. I see that at school. How can you teach if they don't speak English.

Language barrier. If they can't talk or understand there's not much they can do.

Language barrier. They get frustrated and are unable to communicate their health care needs.

Language barriers because if they had that barrier broken down, they could get better health care.

Language barriers because of failure to communicate.

Language barriers because there are few translators in the doctors' offices.

Language barriers because there are not many translators available

Language barriers. You can't get help if you don't know how to ask for them.

Language because you are isolated if you can't communicate. Otherwise, they get the same care as we all do.

Language. A lot of Hispanics don't get help because it's hard for them to be understood even if they try to speak English.

Language. Many don't speak English.

Language/culture barriers to accessing care because of few interpreters being available.

Language/cultural barriers because these inhibit them from seeking care

Learning English. Health care is there if they know how to get it. They need to tell the doctors and nurses what is wrong with them.

Most places are not bilingual!

No Hospital

No SS# therefore don't qualify for Medicaid

None

Not enough affordable health care for my husband and I. I think most adults feel this way.

Not only is the language a barrier to accessing a doctor's help, but the other cultures are sometimes here illegally and use the same name and information, causing more problems.

Probably communication (language) barriers. If one is unable to communicate effectively, they are unable to get the diagnosis and/or right medical care they might need.

The Hispanics got the same care we do but they may not know it.

The language barrier to know and learn about health care has to be a major problem in this area

The most important issue is the language barrier. There is communication breakdown between doctor and client.

There are two healthcare clinics--there is a need for more and more doctors to service the county

They have no problems receiving healthcare in our community

Why should anyone receive anything more than everyone else because of where they come from or race? The word equal seems to change in meaning here

access to affordable and available care because of the needs shown by students

access to affordable health care. The community needs better access for the health care. Health care is too expensive.

access to health care services because they should be treated like everyone else.

adequacy of services

adequacy. Most health care services anymore are rushed by patients and a lot of times they may not deal directly with your problem but instead say

you have something else just to get done.

adjustment of health services benefits

affordable & available health care.

all if you don't have insurance you can't get adequate health care.

awareness

cultural and language barriers make it hard for people to make themselves understood.

cultural and language barriers. Local people's understanding of other countries' culture and the need for more bilingual employees.

cultural and/or language. It's getting better but a lot of Hispanics still can't get to see a dr. because they don't speak English

cultural/language barriers difficulty of language

cultural/language

don't know.

easy access to medical care (all) we have to travel too far for it and ambulances are costly.

illegal aliens don't qualify for some health benefits. I believe that most multicultural members do not have health insurance even though they are working.

language

language and cultural because without speaking English, they aren't aware of available services

language barrier

language barrier because they can't tell us what is wrong.

language barrier because older people from other nationalities cannot communicate.

language barrier because the older population is set in their ways and won't learn a new language

language barrier because they can't communicate to become educated on what they need or what is available

language barrier because unable to communicate

language barrier--pts non-English speaking may not get the appropriate care. R/T--misinterpretation and lack of correct immunizations and bringing in diseases from other countries.

language barriers

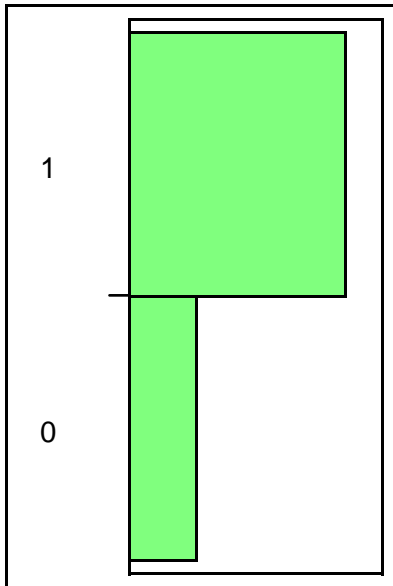

Level

language barriers are a problem not only in this county but others. Sometimes we have to use an interpreter
 language barriers because of unwillingness to learn english language and no facilites to teach them english.
 language barriers because our county needs to offer english classes to them, not teach us spanish.
 language barriers because they need to learn english.
 language barriers because we need to be able to understand them better
 language barriers--communication is very hard at medical facilities if you are not bilingual
 language--because they do need to know what is available.
 language. You can't get help if you can't express yourself.
 language/cultural barriers because they know how to access health clinics, etc., but cannot communicate with the clinic once they get there.
 less fortunate have hard time working and taking care of children, etc. need more services.
 minorities have care better than we do.
 multicultural access to health care
 need mor bilingual speaking persons in medical facilities
 no issues
 no problem for them.
 no tenet personas bilingues en los lugares de servicio de salud; no poder comunicarse
 none
 none because it is as easy for them to have access as it is for us.
 nose
 not sure
 persons able to understand the language
 problem with the language
 the availability of care
 the knowledge of the services that the multi-cultures need because of a communication gap.
 unknown
 we need adult unurance as the same as ArKids insurance.

-Cost of Rx

1) Access to after hours clinics; 2) Affordable mental health care services; 3) cost for Rx

1) After going to the doctor getting a different infection from poor good hygiene in waiting rooms/dissinfection.; 2) finding after hours

2) clinics and on holidays; 3) finding affordable health care

1) Madison Co. needs a hospital, 2) Mad. Co. needs after surgery rehab., #0 Drug rehab

1) financial (cost of medical care and prescription); 2) Access to hospital (locally); 3) Cost of dental and eye care

1- injury

2- sudden illness

1. A community hospital with 24 hr emergency and trauma rooms; 2. Professional and competent emergency medical services; 3. Educationg

2. the elderly, ethnic groups and native arkansans on health issues.

1. Affordable health care

2. Affordable prescriptions

1. Affordable health care; 2. Affordable prescription drugs; 3. Access to a dentist on short notice who isn't too expensive.

1. Lack of health education/disease rehab; 2. Health services/care more accessible; 3. Coping with chronic disease, i.e., heart disease, stroke, etc.

1. Not being able to get apptmt when sick

2. No hosp.

3. Not enough services available

Access to emergency services.

Diagnostic services.

Can't think of another.

Affordable care and prescriptions

Affordable costs would be great: medical, dental, chiropractic

Affordable health care; availability for health care; affordable prescriptions

After hours clinics or doctors on weekends.

After hours weekends and holiday access for everyone.

Lack of hospital in Madison Cou ty

No comprehensive prescription drug program for senior citizens.

Asthma

Available dental care

Good and kind hospital staff.

Carbon Monoxide from gas stoves; Smoking "because they are allowed to smoke everywhere"; "Can't think anymore"

Cost of perscriptions

Elderly heath care & living quarters

Substance abuse & smokeless tobacco

Diabetes, alcoholism

Drug abuse

Lung disease

Heart disease

Drugs

HIV

Other diseases

Drugs; diabetes; money for health care and prescriptions

EACH OF HOSPITA, EACH OF DENTAL CARE TRANSPORTATION

Level
Emergency assistance

Affordable health care

Awareness of health care services.
Emergency care.

Getting in to see a doctor soon.

Can't think of another.
Emergency medical care.

No hospital

Difficulty in getting in to see a doctor at the clinic.
Finding a good doctor in Madison County who can see you in a timely manner.

Kids in school with no dental care.

Getting to a hospital quick enough if needed.
Getting affordable health care insurance. Finding a good dentist. Getting insurance companies to pay for medical care
Getting into a doctor in a timely fashion with a minor health problem (flu, etc.)
Getting to a doctor when we need it because we ain't got money.

When my wife's pregnant I worry we're so far from a doctor

That's all I can think of for now.
Health care costs.

Access to a hospital

Can't think of a third.
Hospital

Diabetes

Drug abuse
Hospital availability

Assisted elderly living

Substance abuse
Hospital care in Huntsville, diagnostic care
Hospital(lack of); Money for prescriptions; drug abuse
Hospital--lack of one; Substance abuse
Hospital; prenatal care
I did not have health insurance.
Injury, sudden illness
Insurance beauracrazy

Access to after hours medical attention.

Money for prescriptions.
It is hard to find one physician who can deal with an entire family and their health problems because of their caseloads, rising costs, as we are getting older we are experiencing more health problems which results in more visits and expenses.
Lack of hospital

Lack of insurance

Lack of pediatric care.
Madison Co. needs hospital; more attention to substance abuse; more things available for elderly
Medicaid does not pay for anything; Insurance takes too long to come in; the need to work out a payment plan for folks who can not afford it.
Mental health facilities or treatment centers and providers.

I see a need for a 24 hour emergency care facility.

Nothing else.
Money for health care services; not going to the doctor because there is no money; no hospital
Money for prescriptions.

No access to hospital or ER

Available physicians (lack of)
Money; Available; Care

Level

More and better care for severely depressed person. My husband committed suicide the last week in June. I fell off the porch.

No affordable health care; cost of medication too high; no hospital

No hospital; substance abuse

No insurance (for me and my family)

No hospital

No Medicaid.

No one in my household had these needs in the past 12 months. For others it would be a hospital, access to doctor in a timely way and mental health services being available.

Not enough money, not enough money, not enough money

Pharmacy costs too high; diabetes prevalence; lack of a hospital

Place to go when 2 local clinics are not open (ie. Saturday and Sunday for emergency service), Help for elderly in crisis situations, help for children in crisis situations.

Rural water

Sewage systems

Need natural gas

Seeing a doctor promptly

Access to mental health care.

We need a hospital

Self and household-Unable to afford copays at doctor, Depression-can't afford prescription, Access to dental care, had to go to Oklahoma to get dentures

Timely access to a dr.; no hospital; no emergency center

Timely access to medical care. Distance to specialized providers no other.

To have emergency health care closer.

Worrying about having enough money for medical bills; not having a place to go when the clinic's closed.; over weight

a hospital; hospital or clinic that is able to be afforded by the people; she couldn't think of another one; public transport for community.

access to emergency care; dental assistance for children in community w/ ArKids and w/out; we need a hospital for maternity, elderly and others.

access to local hospital, emergency room care, access to medical care on holidays, weekends ect.

affordability

affordability of health care; accessibility of a private health care provider; language barrier

affordable dental care

not being able to get app. When you need one.

Prescriptions

affordable insurance; a good hospital; can't think of another.

assisted living for elderly; more multi-cultural information; access to er care

availability of physicians in acute emergencies

availability of services; emergency help; affordability

available emergency care after hours; alcoholism; tobacco use

can't get in to see a doctor within a reasonable amount of time; prescriptions are too costly; elderly can't get a ride some of the time.

cancer; substance abuse; access to care

cost of care; mental health emergency intervention; prescription costs

cost of insurance; availability of medical care

don't know.

drug and alcohol abuse; cancer; alzheimers

emergency care

pediatrician that is close

dental coverage

emergency care close; awareness; adequate

emergency care.. Our ers are great but the distance to some homes makes injury/or illnesses a major concern.prescription refills-no overnight

pharmacy costs-- again to many people can't afford to see a doctor.

emergency room in county 25 hr.

fu

cold

pneumonia

getting to see a dr. in a timely fashion; emergency care; a hospital

having to drive 30 miles to a hospital

a dentist who will take medicaid

health care available on Saturdays; need a hospital; mental help

health care cost as a total including insurance

hospital centers for emergencies

hospital needed in our county; access to emergency services

lack of affordable health insurance, lack of preventative counseling

lack of hospital, lack of place to exercise

Level

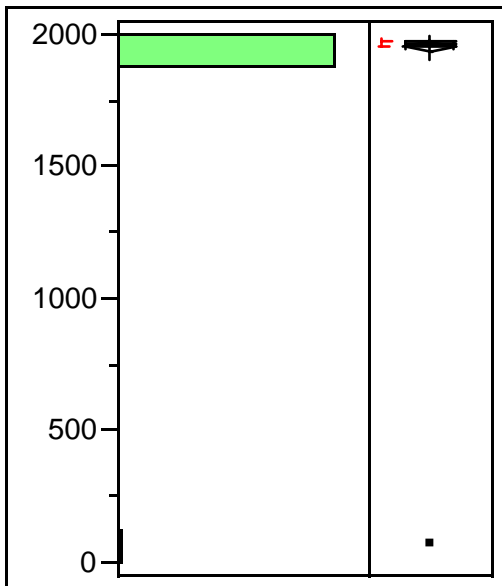

lack of trauma center or hospital, lack of activities centers for families, availability of prescriptions
local hospital; reliable md's; affordable rx
longterm medical and dental care
lungs; dislocating bones; mental health
money for ongoing medical care; cancer; available psychiatry
money for prescriptions; no hospital; excessive weight
need care for elderly; getting rid of drugs in our community; helping elderly get medication
need cheaper insurance; after hours clinic
need more medical facilities; hospital is needed
next county
no alcohol treatment facilites; no hospital
no emergency clinic; do not accept medicaid; always have to have and appointment
no health insurance for herself; money for Rx; "can't think anymore"
no hospital, also no after hour or weekend medical care, no affordable adult dental or no ArKids dentist.
no hospital; after hour or er care; access to affordable dental care
no hospital; low income and unable to pay for services; money for rx
no hospital; no after hour/er care; money for rx
no hospital; specialits md; lack home health
no hospital; transportation to health care centers; no specialists in Madison county
no hospitals or mediquick centers
no local hospital; not enough dentists; no er
no one in my house has needed emergency care. I would say prescription costs and getting to a dr. when you need one. Also, a hospital.
no se
none
nose
not being able to get on medicaid; money for prescriptions
prescription cost; no hospital; transportation for elderly
prescription costs; getting to see a dr. when you need to; emergency care.
problems getting into dr office--myself; tobacco communicating; alcohol communicating.
respiratory, diabetes, alcohol and drug related issues
rising prices of prescription drugs.

Being able to get in to see a doctor at the clinic when your sick.

And in case of an emergency not having to drive 30 miles to a hospital to the emergency room.
smoking; alcohol; substance abuse
the cost of health care>doctors, hospitals, etc.; the cost of medicin; the cost of dental work
unknown
we need a hospital; assisted living; prescription costs

After all I have put down, I am glad I can add this thought and observation. I think our community is making great strides in being aware of our needs. I have seen great progress in the medical fields our community is becoming more aware of the changing c
 Even though I have health insurance, I have multiple health problems and the costs are rising. I would like to see an emergency facility closer.
 Find more dentists to accept Ar kids & help those low income parents get their teeth fixed and not pulled out
 I believe madison county needs there own battered women's shelter. It is a great need in our county. A lof of women and men won't leave their abuser due to it is too far away and they are afraid of leaving w/ kids. This is a major issue and we need this g
 I cannot stress enough how hard it is to see a doctor when you need one.
 I feel madison couty does not provide enough health care options to the community. There is not enough clinics, dental offices or emergency care in

Level

our community

I think that great inroads are being made in this county to have better access to health care and information on government programs. A healthy and educated populace makes a better county. Keep up the good work.

I think there needs to be medical and dental insurance available for adults like there is for ArKids 1st.

I will not say what my household income was that is personal and private

I would like to see other people be able to get medicare for doctors and dentist other than pregnant woman or children

My 70 yr old mother has worked the same job for over 30yrs and fears to retire because of health care cost and including Rx . She has worked to long & to hard to give all she has saved to someone other than family according to her. I feel a lot of people

Need a hospital in HUNTSVILLE!

Not employed

The welcome addition of Boston Mountain Rural Health Clinic has created more of a "safety net" for the under and uninsured in Madison County.

We still are in dire need of after hours and holiday medical care access.

This survey is a step in the right direction

We need all types of services, insurance availability for rural self employed and prescription help for the elderly.

We use a hospital

With the growth in this area emergency care and emergency help with prescriptions.

more preventive health care--proactive

none

thanks for asking!

there is a need in our county for an er facility!

we need a ER in our county & good driving distance

we need a er in our county and good driving distance

we need a hospital desperately! There is no reason for everyone to have to travel to springdale and fayetteville. Huntsville would be a terrific place to have a hospital and it would be a wonderful service to many people.

we need a hospital!
